

Heavy Duty Li-ion Batteries for Cine-Camera

LITH specially designed the heavy Duty series batteries for Cine-cameras that require high load power. With capacity 150Wh, 170Wh, 220Wh, 260Wh for your choice. Besides, the batteries also can power the camera and other on-camera accessories with the built-in power tap simultaneously. Normally long-time high load powering will reduce the battery life quickly, but the heavy duty batteries will not be affected.
